**Question:** [How many HU is it?](#)

**Answer:** Take a close look at the pictures of this product which include zoomed in photos of the product lables. They show this as 40,000HU and I can tell you that it is every bit of that. Further down the label they also suggest Kool Mint Cayenne which is a buffered formula that I'm seriously considering.

### I don't get sick anymore

By [Deborah Larson](#) on October 21, 2016

Package Quantity: 1 **Verified Purchase**

I've had problems for YEARS getting sick with sinus and upper respiratory infections. It started with a cold and always built into something more. With the MANY benefits of cayenne, I'm feeling much better. My nose isn't constantly plugged anymore. I have limited post nasal drip, and I can sleep all night and breathe through my nose. This has definitely been a life saver for a long time sinus sufferer. HIGHLY RECOMMEND all year long and especially during the cold season (fall and winter)

Labs results are back! I have being able to leave my prescribed nitro glycerine! My body is synthesizing its own nitrates and the vasodilation originated by this supplement is keeping me alive! I'm also taking natto kinase for blood thinning.

### Helps with lowering my blood pressure!

By [Tyra Walters](#) on May 10, 2015

Package Quantity: 1 **Verified Purchase**

I take this as part of my daily vitamins to help with high blood pressure. If I take it every day, my bp will stay at a nice 120-something/80-something. I do need to eat a little something when I take tho, as it makes me burp cayenne a little.

**My favorite supplement.**By [Riley Refuerzo](#) on February 11, 2017Package Quantity: 1 **Verified Purchase**

I haven't been able to find a single supplement that has so many health benefits. Since taking this product, I've noticed a big improvement in my circulation, I'm a lot warmer now throughout the day. If you suffer from bad allergies you definitely should start taking this product. This will clear out your congestion within minutes. It is also supposed to be very good for your cardiovascular system. I have not noticed any side effects, you just have to remember to take this with some food or you might get a stomach ache. It is definitely worth taking the supplement daily.

---

Ok I've been taking this product for officially one month now and it's given me even more benefits that I thought of before. Besides clearing up my allergies, I've noticed this also helps if I have a headache ( I think it has to do with the cayenne opening the blood vessels). If I have an upset stomach, I'll eat a banana and take two of these capsules, the cayenne is apparently also good for stopping diarrhea. Along side those benefits, there is also the plus of cayenne being able to lower your blood pressure naturally. Especially if you are under a lot of stress, this could be a good alternative to blood pressure medication. Anyways, I plan on buying more as soon as I run out. I take 4-5 pills a day, absolutely no side effect.

The product is easy to take. Pills are on the smallish side, and do not upset my stomach. I have taken with and without food. I have taken the recommended dose each day since I received them with no noticeable aftertaste. I feel better since I started taking them.

This cayenne is some potent stuff! It definitely contains some heat and works very well. It is a great pain and appetite reducer for me. I also notice better energy due to increased circulation. **Take it with a meal**By [ssqueakert](#) on February 18, 2017Package Quantity: 1 **Verified Purchase**

If you take it on an empty stomach it can give you cheat discomfort like bad heartburn. Take it with food and it's not a problem. It will bump up your heart rate, so don't take it before bed or it can be hard to sleep. But before a work out and you will feel like you have more energy and in theory, you will burn more calories and build muscle faster.
